2.3 The Vodafone JóDolgok Programme (Vodafone GoodThings Programme)

The Vodafone JóDolgok Programme (hereinafter: Programme) is available from 2 May 2018, under these amended terms from 1 March 2019, until revoked.. Any active, post-paid Small Enterprise Subscriber (with a monthly fee) or User (hereinafter: Subscriber) of Vodafone with a business voice-based tariff may register for the Programme. The precondition of registration is to accept this Conditions of Participation, as well as the general direct marketing consent (offers concerning products and services of Vodafone Magyarország Zrt., forwarding their advertisements), the approval of the use of positioning data and the settlement of overdue billing debts.

The registration is applicable to the subscription (phone number) through which Subscriber performs the registration. If Subscriber has more than one subscription, the registration shall be completed for all subscriptions separately.

After successful registration the offers and occasional discounts currently available on the market within the frameworks of the Programme will be accessible to the Subscribers (hereinafter: Surprise offers).

Registration for the Programme is available through the MyVodafone application or SMS as shown below:

Registration process for the Programme:

Registration via the MyVodafone application:

Free registration for the Programme is available in the "My JóDolgok" item of the "My Settings" menu item in the MyVodafone application. After successful registration the current Surprise offers will be available for the Subscriber.

Registration via SMS:

Free registration for the Programme can be completed by sending the code JODOLGOK in an SMS to phone number 1270, which then can be finalised by Subscriber by sending the code JO to phone number 1270 as a response to Service Provider's SMS requesting confirmation. If Subscriber sends a different SMS as response, the request for confirmation will be resent by Service Provider. The sending of such text messages is free of charge from the network of Vodafone Magyarország Zrt., while from abroad the SMS fee according to the relevant roaming charge must be paid. Received SMS messages are free of charge.

Following the registration on either channel Subscriber will be informed about the successful registration in an SMS.

Following the successful registration for the Programme through either channel, the following offers will be available for all registered Subscribers for the subscription concerned:

- **Buying accessories with 10% discount**

The offer may be used in case of personal purchase in the stores of Vodafone Magyarország Zrt. (find the list under: ><https://www.vodafone.hu/uzletkereso><). The discount will be deducted from the gross prices of the price list of accessories, it cannot be combined with other discounts and is available for a specific range of accessories; you can receive more information about this in our stores. The eligibility of Subscriber for discounted purchases will be verified according to phone number (MSISDN).

Following the successful registration for the Programme through either channel, the following Surprise offers will be available for Subscribers with MyVodafone application:

The Subscriber registered for the Programme may receive Surprise offers in case the following cumulative conditions are satisfied: Subscriber has been active for at least 24 months, is a post-paid Small Enterprise Subscriber (with a monthly fee) of Vodafone with any business voice-based tariff, who does not have any billing debt overdue, has a MyVodafone application and an active Vodafone JóDolgok registration as well as active consent concerning general direct marketing and positioning data.

Registered Subscribers may obtain information about the Surprise offers currently available for them via their smartphones with Android or iOS operating systems or on their tablet in the MyVodafone application, and they can choose to accept the current offers in the MyVodafone application. One Surprise offer at a time will be displayed to the Subscriber who can decide on accepting or rejecting the current offer in the My Vodafone application. As long as the Subscriber does not make a decision on accepting or rejecting the current Surprise offer, the next Surprise offer will not be displayed to it. Surprise offers may be accepted once a day, unless otherwise specified. The Surprise offer is available until it is displayed on the platform used. If the Subscriber fails to accept the offer, Vodafone deems this as non-acceptance of the offer. It may happen that the Subscriber does not have any Surprise offers available currently, although he/she has registered. Vodafone does not undertake commitment in relation to this.

Among the Surprise offers, all Subscribers with a JóDolgok registration can find a free AdatFalat offer at least on 1 occasion on a weekly basis. AdatFalat offers provide free plus data traffic of variable volume (25 MB, 50 MB, 100 MB, 200 MB or 500 MB). The data can be used in Hungary or the EU, within the validity time specified – it shall be used before any data package included in the plan or – if the Subscriber has one – any data packages purchased in excess of that. All Subscribers can have no more than 3 active data packages simultaneously; if the Subscriber already has 3 active data packages in his or her subscription when accepting the AdatFalat, the AdatFalat activation will be unsuccessful and activation can be requested only by deleting one of the other active data packages.

We will notify the Subscriber about the AdatFalat activation and the data volume usage by SMS. As to the order in which offers are displayed, the AdatFalat offer can be displayed before the other Surprise offers, but it may happen that the AdatFalat is displayed after the other Surprise offers.

If the Subscriber views its current Surprise offer at least once every week, and following acceptance/rejection of the offer displayed, it plays again, it will surely find a free AdatFalat at least once per week.

Besides the AdatFalat offers, other Surprise offers may include minutes, SMS, data, monthly fee or other service fee discounts, device or accessory purchase discounts or integrated offers.

You may be informed about the conditions of use of the Surprise offer right before accepting it via the MyVodafone application.

Subscribers will be informed about the successful activation of the Surprise offer via SMS.

The ordered Surprise offers may be used within the predefined validity period (according to the Hungarian time zone) and in line with the conditions specified in the offer. Minutes and SMSs in the network may be used domestically within the network of Vodafone Magyarország Zrt., minutes and SMSs that may be used for any directions may be used in Hungary for all Hungarian numbers or from the EU for any Hungarian or EU standard-rate numbers, and data may be used domestically and within the EU. Use conducted abroad is governed by the current Roaming rules and rates. The units not used until the expiry of the term of validity will be lost.

Within the scope of the promotion, we use Referee (hereinafter: Referee) to refer to existing, post-paid (account holder) Small Enterprise Subscribers who register themselves as Referees in Vodafone brand shops, in distributor stores or via the telephone customer service numbers 1270 or 1401 that can be called free of charge within the network of Vodafone Magyarország zrt., or by sending the AJANLO code in a text message to the telephone Customer Service at 1270, and promote the services of Vodafone Magyarország zrt. (hereinafter: Vodafone) to third parties.

Within the scope of the promotion, we use Recommended Person (hereinafter: Recommended Person) to refer to new, post-paid Small Enterprise Subscribers who, upon the conclusion of a contract at a Vodafone brand shop or distributor store, gives the phone number of a Vodafone Subscriber previously registered as Referee, and simultaneously indicates that the Referee promoted the services of Vodafone thereto.

If the Recommended Person concludes a new

1. post-paid (account holding) subscription contract with Vodafone

AND

2. As a Recommended Person, in the course of a Small Enterprise contract conclusion with Vodafone, gives the phone number of a Vodafone Subscriber previously registered as Referee, and simultaneously indicates that the Referee promoted the services of Vodafone thereto, the Referee shall be granted a referee allowance (hereinafter: Referee Allowance), while the Recommended Person shall be provided a recommended person allowance (hereinafter: Recommended Person Allowance) according to the following terms and conditions:

3. Referee Allowance:

The post-paid (account holder) Subscriber as a Referee is granted an account allowance of HUF 1000 gross for three months (i.e. a sum of HUF 3000 gross) as a Referee Allowance, which amount is deducted from its tariff monthly fee by Vodafone. In the case of a divisible package, the allowance is applicable to the monthly fee of OkosRáadás. Upon more than one referral, the allowances are added up; however, the allowance can be credited only up to the amount remaining after deducting the amount payable for third party services or other potential allowances excluding internet, usage and other fees. Allowances exceeding the total amount billed cannot be carried over to the next months. Subscribers registered as Referees can be granted a Referee Allowance a maximum of ten times per calendar year. (Third party services include but are not limited to mobile phone purchases or mobile parking.)

4. Recommended Person Allowance

The new post-paid (account holder) Subscriber as a Recommended Person is granted an account allowance of HUF 1000 gross for three months (i.e. a sum of HUF 3000 gross) as a Recommended Person Allowance, which amount is deducted from its tariff monthly fee by Vodafone. In the case of a divisible package, the allowance is applicable to the monthly fee of OkosRáadás. The allowance can be credited on a monthly basis only up to the amount remaining after deducting the amount payable for third party services or other potential allowances excluding internet, usage and other fees. (Third party services include but are not limited to mobile phone purchases or mobile parking.)

5. Other conditions

The promotion applies only to SIM cards subject to voice based tariffs meaning that the Business Group EU tariff package and the data SIM cards do not take part in the promotion, i.e., neither Referring Party nor Referred Party discount may be granted to them in the promotion.

Subscriptions with the same Bill Payer ID cannot be each other's Referees and Recommended Persons within the scope of the promotion, and thus they cannot be granted the allowance provided as part of the promotion.

The promotion shall not be recommended publicly via the internet or forums in any form whatsoever, and recruiting by these means is also prohibited! For the latter case Vodafone reserves the right to withhold the allowance regarding all the referrals of the Referee.

The parties participating in the promotion shall not be regarded as intermediaries; participation in the promotion does not create in any way, particularly but not exclusively, an intermediary, employment, engagement or other (legal) relationship involving any activities for performing work, providing representation or other similar activities between Referee and Vodafone, and it does not aim at any of those mentioned above, irrespective of the name of the relationship or activity; furthermore, it does not represent an offer from Vodafone or the acceptance of an offer from any other party for the above or similar activities.

As part of the offer, in addition to the rights of termination set forth in section 12 of the GTC, Service Provider grants the right of termination specified in the given offer to Subscriber with regard to the Subscription Contract. Regarding other conditions not specified in the offer, the GTC shall prevail.

The Subscribers participating in the offer are entitled to terminate their Subscription Contract concluded for the provision of a wireless internet (i.e. mobile internet access) or mobile phone service with immediate effect within 30 (thirty) days from the beginning of the provision of the service with reference to this 30-day network user satisfaction guarantee offer, insofar as the Subscriber's interest in fulfilling the Subscription Contract is discontinued due to the fact that the quality of the service does not satisfy the Subscriber. If Subscriber wishes to exercise its right of termination granted within the scope of this offer, Subscriber shall state so when communicating its intention for termination to Service Provider.

If the given Subscriber concludes more than one Subscription contract with Service Provider during the term of the campaign and under the scope thereof, the one-time participation in the 30-day network user satisfaction guarantee offer refers to the following:

- if Subscriber has not terminated a Subscription Contract yet on the grounds of the 30-day network user satisfaction guarantee offer, it may choose to exercise its right of termination granted within the scope of the 30-day network user satisfaction guarantee offer with regard to one or more Subscription Contracts simultaneously, provided that it is entitled to the right of termination in relation to all of its Subscription Contracts. Simultaneous exercising of the right of termination shall mean the termination of more than one Subscription concluded within the scope of the campaign at the same time by means of one legal statement. The exercising of the right of termination granted within the scope of the campaign shall constitute a one-time participation in the campaign.

- if Subscriber has already terminated one or more Subscription Contracts at the same time on the grounds of the 30-day network user satisfaction guarantee offer, it shall not be entitled to exercise its right of termination regarding any other Subscription Contract concluded by it within the scope of the campaign, irrespective of the fact that the conditions of the 30-day network user satisfaction guarantee offer have been contained in the Subscription Contract, and less than 30 days have passed since the conclusion of the Subscription Contract.

Upon termination within the scope of the campaign, Service Provider may claim only the proportional monthly fee due between the conclusion of the contract and the termination thereof, or in the case of a service including a traffic-based fee, the traffic fee actually used by the Subscriber, or the costs of other services with ad-hoc fees used with the service. On the basis of the Subscription Contract, Service Provider shall not charge other costs to Subscriber, in particular termination fees or administrative costs.

Insofar as no Handset Sales Agreement has been concluded between Service Provider and Subscriber simultaneously with the Subscription Contract, Subscriber is entitled to terminate the Subscription Contract on the grounds of the 30-day network user satisfaction guarantee offer either personally or by visiting any Vodafone brand shop, distributor store or by calling the telephone customer service 1270 free of charge within the network of Vodafone Magyarország Zrt.

If a Handset Sales Agreement has also been concluded between Service Provider and Subscriber simultaneously with the Subscription Contract, and Subscriber wishes to terminate the Sales Agreement as well on the grounds of the 30-day network user satisfaction guarantee offer upon the termination of the Subscription Contract within the scope of the 30-day network user satisfaction guarantee offer the latest, Subscriber is entitled to terminate the Subscription Contract and the Sales Agreement within the scope of the 30-day network user satisfaction guarantee offer only personally, by visiting any Vodafone brand shop or distributor store.
